LOTTERIES.

Kentucky at Last Delivered From These Frauds and Robbers.

Goebel Law Constitutional-Vested Rights no Good-Ruling of the Court of Appeals.

The good people of Kentucky who have been fighting for years to drive from the State those frauds known as lotteries have at last won and their victory is a grand one.

The Court of Appeals gave the lotteries their death blow last Saturday. Chief Justice Bennett rendered the decision, which in one case affirms and in another reverses the decision of Judge Toney, of Louisville. The cases in question were those of the Frankfort Lottery and the Henry County Lottery, both doing business in Louisville.

Some years ago these companies were granted franchises to operate their lotteries for a certain stipulated sum, to be paid annually to the school fund of Frankfort. For years the lottery people have made fortunes off the poorer classes who liberally patronized the "wheel of fortune." When the national crusade against lotteries was begun a popular sentiment, throughout the State, arose against these companies.

This was finally ended in a bill being introduced in the State Senate by Senator William Goebel, of Covington. He championed the measure through a long drawn out fight, which finally ended in the bill being passed. It was afterwards discovered that the bill did not secure the requisite number of votes, and Senator Goebel again secured its passage. This time it was all right, and it immediately became effective.

Both the above named lotteries still they were exempt from the Goebel bill, having been given a charter which no State Constitution or law could take away.

cided that the Frankfort lottery could tax cases. This involves about \$1,000, continue, while the Henry County must 000 taxes on railroads, from which the stop.

The attorneys for the State appealed

the other.

This decision not only applies to these particular companies but holds the Goebel law constitutional in all cases.

The decision not only knocks out the lotteries but it virtually disposes of the claim of vested rights set up by some other corporations.
